Exposed to: ASP.old, XML, FBML

SOFTWARE / DATABASES

Strong Knowledge: Dreamweaver, MS SQL Server (2005, 2008), MySQL 3 & 5, MySQL Query Browser
Medium knowledge: Photoshop, Image Ready, Illustrator, movie editing, Fusebox
Exposed to: ColdFusion Builder

OTHER: Database Design, version control software, RDC

WEB DEVELOPMENT

2006 ColdFusion Developer – On contract with TELUS part-time

- current • I code for TELUS intranet sites. I work with Executive Communications, Event Solutions and Team TELUS Cares departments. Programmed administration tools including: invoicing, reporting, project tracking, project estimating, event planning, tracking & costs, room scheduling, people scheduling and more. I designed the database using MS SQL and make extensive use of CSS & javascript in my projects. I coded these in Coldfusion 7 using Fusebox 4.

2009 Various clients –

- current • I have been contracted and sub-contracted to add new features, update code or convert data for a variety of clients: www.rentslines.com, www.amsrentslines.com, www.adsupplier.com, www.sixsix8.com, www.bitmojo.com, www.vanrecital.com, www.MrsGrossmans.com. Please see www.coldfusionprogrammer.ca for more details.

2009 West Coast Leaf Youth –

• Designed a PHP / MySQL Content Management System for a web site for the West Coast Leaf Society for Youth, including file uploads & a news feature. I currently add more features as needed. <http://www.youth.westcoastleaf.org/>

2008 Facebook Application –

• I created a simple Facebook application in ColdFusion using FBML & FQL – just to see if I could do it in ColdFusion. <http://apps.facebook.com/alfbapp/>

2005 Sunraye Enterprises

-2008 • SAS is a comprehensive post-secondary Student Administration System being used internationally. I customize existing modules for various schools and code new modules in Coldfusion 5 and Access. <http://www.sasystems.org>

Since 2000: Contract ColdFusion & PHP Programmer [please see www.coldfusionprogrammer.ca for more details]

- **Web Developer** – sub-contractor with **Klik Creative**

I designed a PHP / MySQL Content Management System for a newly designed web site for the West Coast Leaf Society, including file uploads & a news feature. I currently add more features as needed.
<http://www.westcoastleaf.org>

- **Volunteer Developer – Vancouver Pride Society**

While holding the volunteer position of Vice President, I created & programmed the VPS web site (now changed) from a Photoshop file using Coldfusion, CSS and Javascript. I designed the MySQL database and created the content for this dynamic web site.

- **Raised Eyebrow Web Studio**, sub-contractor

- Raised Eyebrow, who redesigned the **Festival Vancouver** web site, hired me to bring over the existing php web site, enhance it with new features and code new dynamic pages. I also updated the back-end administration area with new features. <http://www.musicfestvancouver.ca>

- Raised Eyebrow also redesigned the **Vancouver Recital Society** web site, and hired me to bring over the existing ColdFusion shopping cart, enhance it with new features and code the new dynamic pages. I also updated the back-end administration area with new features. <http://www.vanrecital.com>

- **PortoLynx.com**

I was on a team of many programmers working on GiftPorto, RewardLynx and CourierPorto. Telecommuting via a VPN with this Victoria, BC, company, I'm using coldFusion mx7, MS SQL Server with stored procedures. <http://www.portolynx.com>

- **CMS**

I Designed and programmed a few Content Management Systems for two sites: back-end CMS' for the web site administrator and front-end CMS' for the clients and vendors. Please see my online portfolio for screen shots.

- **Inspot Development**

Contract ColdFusion programmer, working with Cold Fusion MX, and SQL Server on a complex corporate survey system.

<http://www.inspot.com> Meridian Resources: <http://www.meridianglobal.com/index.cfm?id=34-3>

- **Peace it Together**

Designed a Message Board for the planners of Peace It Together using MySQL and ColdFusion. The back-end, password-protected administration area updates the database tables, including the ability to upload files. <http://www.peaceittogether.ca/> (password-protected area)

- **Tikkun Yoga Centre**

As a school project in 2000, I designed and hand coded their web site using Photoshop, Illustrator, HTML and JavaScript. I still do content updates. <http://www.tikkunyoga.com>

EDUCATION

current **Always teaching myself new things**

2001 **Beginner, Intermediate & Advanced Visual Basic** - Vancouver Community College

2000 **Diploma in Advanced Internet Development** - Bodwell Internet School, Vancouver, B.C.

1985 **Diploma in Computer Programming** - Control Data Institute, Vancouver, B.C.
